

Belt Sizes

We take pride in offering **high-quality** western leather belts in a wide range of sizes to fit your lifestyle. Our standard sizes range from 28 to 48 inches. Whether you need something larger or smaller, we've got you covered!

How We Measure Our Belts

We measure our western leather belts in inches, starting from the end of the belt (where it attaches to the buckle) to the middle hole.

The middle hole provides flexibility, allowing for adjustments with extra holes on either side so you can find the perfect fit every time.
