

RING SIZING – Video Script

Getting the right ring size is super important. Jostens has provided an easy and convenient way to size your finger by using the downloadable ring sizer, or you can contact Jostens and they'll send a plastic ring sizer your way. Then just choose the finger you plan to wear your ring on, size it, and they take care of the rest. When you get your ring, if for any reason it still doesn't fit, they'll re-size your ring at no additional cost and rush the re-sized ring back to you.
